

Press Release

Integrated Technical Systems, Inc. (ITS) is proud to announce that Richard N. Best Associates, Inc. (RNB) has joined the ITS family. With over 50 years in business, ITS is a leader in integrated electronic and computerized access, parking, security and control systems and related technologies, emerging as the largest systems integrator of its type. The ITS team continues to develop and grow, ensuring that it will remain at the technological peak of system-integration in the future.

RNB, located in Fairless Hills, PA, was founded on the principles of excellence, vision, teamwork and unbiased insight that have been held for over 50 years in its growth and development. Founded in 1972 by Richard N. Best, P.E., a professional engineer, developed the first true-presence vehicle loop detector, a concept that still is in use today.

RNB continues to apply its founding principles and strengths as it supports various product lines, and provides technical expertise within its market. RNB represents an expanding list of companies and product lines and continues to advance as a leader in systems integration and innovation for the parking and access control industry.

The ITS/RNB Team Core Values:

- Market and client driven
- Passion for technology and innovation
- Entrepreneurship
- Collective ownership together with individual accountability to achieve highest standards
- Parking domain knowledge is core
- Work safely and with respect to environment
- Integrity
- Customer Satisfaction

The ITS/RNB Competences:

- Industry(s) knowledge & consultancy sales
- Project management
- Assembly
- Installation
- Training
- Site management
- Service
- Maintenance & Repair

ITS, with offices in CT, MA, MD, NJ and PA, will continue to advise/consult, sell, supply, service and support various products within the Northeast, Mid-Atlantic and surrounding Regions.

The company is a leader in the sales, integration, and service of Gated Parking Revenue Control, Multi and Single Space meters, Parking Management & Enforcement Systems, Access Control, Building Security and Fire Alarm and Detection Systems. ITS supplies, installs and services systems to monitor and manage customer operations and facilities, as well as developing and providing software related solutions. ITS also offers evaluations of existing operations to determine the most effective system for increasing parking revenue or enhancing access control, security and/or safety of an operation.

The primary mission at ITS is to be the Market Leader by providing high-quality products, technical expertise, exceptional customer support and responsive service at every level.
